BSNL connects Indian islands to main land

Bharat Sanchar Nigam Limited (BSNL), one of the leading telecom operators, has improved connectivity of islands (Andaman & Nicobar and Lakshadweep) to the main land of the country. BSNL has augmented satellite bandwidth in A&N Islands from 240Mbps to 1Gbps. Further, the bandwidth augmentation work is in progress and 2Gbps will be completed by Dec 2018. In Lakshadweep Islands, the bandwidth has been augmented from 102 Mbps to 354 Mbps. Due to this increase in bandwidth, the citizen of these islands as well as tourists will be able to get faster internet service.
