## BSNL extends free roaming service by a year

NEW DELHI, JUNE 15

BSNL today extended free roaming service for its mobile subscribers by another year. "BSNL has decided to extend the Free National Roaming facility to its mobile customers for another one year," the state-run telecom firm said. The PSU had launched the scheme last year.

"The decision to extend the facility has been taken in view of overwhelming response of its customers in mobile number portability and achieving growth in customer base," BSNL Director for Consumer Mobility RK Mittal said. — PTI
